TO WHOM IT MAY CONCERN

To the Admissions Committee,

I am pleased to recommend Mubashir Ali, who was my student in 11th and 12th grade Physics at Uswa College Islamabad. Over the course of his studies, Mubashir consistently demonstrated an exceptional grasp of complex physical concepts, consistently ranking among the top 5% of his peers. His analytical mindset, problem-solving skills, and curiosity make him stand out as a student of extraordinary capability.

Mubashir's motivation and dedication to his goals are unmatched. He approaches challenges with a disciplined work ethic and an eagerness to master both theoretical and practical aspects of Physics. His independent research abilities are remarkable, often exploring advanced topics beyond the classroom curriculum and presenting findings in a clear, structured manner.

In addition to his academic excellence, Mubashir is an outstanding collaborator. He communicates his thoughts with clarity, listens attentively, and contributes meaningfully to group discussions. His leadership potential is evident in projects where he guides peers, organizes study sessions, and encourages others to achieve their best.

I am confident that Mubashir Ali will thrive at King Abdullah University of Science and Technology. His exceptional talent, intellectual curiosity, and determination to excel in science make him a perfect candidate for your program. I wholeheartedly endorse his application.

Sincerely,

Asghar Ali

Lecturer, Uswa College Islamabad
